YOUR NEXT SEASON STARTS HERE

A few details. *We'll take it from there.*

Your product codes. Estimated quantities. A delivery destination and target date. That is enough to start the conversation.

inquiries@parksourceunlimited.com

BEFORE YOU ORDER

Confirm attraction compatibility, required documentation, pricing, minimum order quantities, availability, freight and delivery timing with ParkSource. Color and design options are shown as supplied.

Read the specifications clearly: nominal sizes differ from inflated measurements. Dimensions are in centimeters and weights in kilograms. The supplied maximum recommended pressure is 0.06 bar (0.87 PSI). Follow your attraction and tube operating instructions.

Open specifications: WT-03 has no supplied rider count, inflated or deflated dimensions, or weight. WT-56 has no supplied inflated height. Ask us to confirm these details.
